

Medical Foster Care Billing Guidelines

This guide has been developed to give guidance for Medical Foster Care (MFC) providers who are rendering services during the continuity of care period and thereafter to members who transition into Simply Healthcare Plans, Inc. and Clear Health Alliance (Simply).

Continuity of care

We want to remind providers that the Statewide Medicaid Managed Care Managed Medical Assistance (SMMC MMA) continuity of care (COC) requirements for new members mandate that we pay for COC services rendered to new enrollees transitioning into the plan. In the event a new Simply member is receiving prior authorized, ongoing treatment with any provider, including those services previously authorized under the fee-for-service delivery system or by the enrollee's immediate former managed care plan, Simply is responsible for the costs of continuation of such treatment. This responsibility stands without any form of authorization and without regard to whether such services are being provided by participating or nonparticipating providers for up to 60 days after the effective date of enrollment. Simply will reimburse nonparticipating providers at the rate they received for services rendered to the enrollee immediately before the enrollee transitioning for a minimum of 30 days unless said provider agrees to an alternative rate. Further information pertaining to reimbursement outside of the COC period can be found under the provider manual.
