Behavioral Health Screening Coding Requirements

The codes to be used to document the receipt of a Behavioral Health (Mental Health and Substance Abuse) Screening are as follows:

Option 1: Evaluation and Management (E&M) Paired with Initial or Periodic Screening Visit Code

Initial or Periodic Comprehensive preventive medicine evaluation and management of an individual including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of laboratory/diagnostic procedures, in conjunction with an appropriate screening code new or established patient.

Procedure Codes

New Patient: Office or other outpatient visit for the evaluation and management of a new patient, which requires 3 key components.

- 99201 (Typically 10 minutes face-to-face)
- 99202 (Typically 20 minutes face-to-face)
- 99203 (Typically 30 minutes face-to-face)
- 99204 (Typically 45 minutes face-to-face)

Established Patient: Office or other outpatient visit for the evaluation and management of an established patient, which requires at least 2 of 3 key components.

- 99212 (Typically 10 minutes face-to-face)
- 99213 (Typically 15 minutes face-to-face)
- 99214 (Typically 25 minutes face-to-face)

Option 2: Evaluation and Management (E&M) Codes Paired with Diagnosis Codes

Office visits with E&M codes may be used, but to be counted as a Behavioral Health Screening one of the following CPT codes must be paired with one of the following diagnostic codes. The pairing of a procedure code with a diagnostic code indicates that a screening was conducted as part of the office visit. Standalone E&M procedure codes do not constitute evidence of a behavioral health screening.

Procedure Codes

New Patient: Office or other outpatient visit for the evaluation and management of a new patient, which requires 3 key components.

- 99201 (Typically 10 minutes face-to-face)
- 99202 (Typically 20 minutes face-to-face)
- 99203 (Typically 30 minutes face-to-face)
- 99204 (Typically 45 minutes face-to-face)

Established Patient: Office or other outpatient visit for the evaluation and management of an established patient, which requires at least 2 of 3 key components.

- 99212 (Typically 10 minutes face-to-face)
- 99213 (Typically 15 minutes face-to-face)
- 99214 (Typically 25 minutes face-to-face)

Use with the Appropriate Diagnostic Codes

NOTE: *These codes represent the high-level code grouping. Specific diagnoses must be used for claims (e.g., DO NOT USE 296; USE 296.30- Major depressive affective disorder, recurrent episode, unspecified)*
